Art Unit: 1731

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-27, drawn to a method.

Group II, claim(s) 28-31, drawn to products.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claims 1-31 are either obvious or anticipated by WO 93 04013 (see priority application PCT/GB99/03283 search report). Accordingly, the special technical feature linking the two inventions does not provide a contribution over the prior art, and no single general inventive concept exists. Therefore, restriction is appropriate.

2. A telephone call was made to Mr. Richard Fichter on June 18, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the

of at least one claim remaining in the  
accompanied by a request under 37 CFR
